

REMARKS

The claims have been amended to delete subject matter being pursued in co-pending applications.

Applicants wish to call the attention of the Office to PCT publication WO 00/20590, assigned to Incyte Pharmaceuticals Inc., and based on three (3) priority applications in the United States, two (2) of which are provisional applications. The apparently co-pending application is Serial No. 09/167,219, filed 6 October 1998. It is believed that the subject matter of the present claims overlaps that of the claims in the PCT publication. The Office may wish to consider the possibility of interfering subject matter in the present application and in any co-pending application related to the above-mentioned PCT publication.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing docket No. 511582002410. However, the Assistant Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Respectfully submitted,

Dated: December 14, 2001

EXHIBIT A. - MARKED-UP VERSION OF AMENDMENTS TO THE SPECIFICATION

In the Specification:

Please amend the paragraph on page 1, at lines 4-6, as follows:

This application[claims the benefit of United States provisional patent application number 60/157,902, filed October 5, 1999, the entire contents of which are incorporated herein by reference] is a divisional application of U.S. Serial No. 09/680,728, filed 5 October 2000, and now pending, which claims priority from U.S. Provisional Patent Application No. 60/157,902, filed 5 October 1999. The contents of these applications are incorporated herein by reference.
